3. Achievements and Reflection of Major Concerns

3.1 Priority Task 1: Enhance students' learning performance

- 3.1.1 In close alignment with our school mission, a board and diversified curriculum has been designed to promote whole person development in a harmonious learning environment. An English-rich Environment is created and built fostering effective communication and interaction in different varieties of English among students with varying degree of linguistic influences from their mother tongues. Our English curriculum is aptly infused with moral and value education through life-wide learning activities, such as “Peter and the Wolf and Drama Musical Performance”.
- 3.1.2 To encourage students to have self-learning skills, pre-lesson tasks, extended learning and using of graphic organizers has been incorporated in the subject daily assessments. Project learning aims to facilitate students' independent learning capabilities, develop their generic skills and interpersonal relations. It also enables students to construct knowledge and broadens their horizons. Cross-curricular curriculum in P.1 & P.5 and P.6 Project learning allow students to associate the ideas by applying into practices. Group projects can provide a measure of teamwork skills and leadership. The theme of this year is animals, things I can do, I can debate, wetland and so forth. An important component of teacher classroom assessment strategies and using of peer and self-evaluation can give feedback to students during the formation stage of learning to check on students' outcome, not only in written assessment.
- 3.1.3 In order to enhance the leadership skill and subject management efficiency, core members, subject consultants and subject panels can grasp the learning objectives of different levels with the help of EDB curriculum guide. The manual included not only procedures and practices but also substantive explanations of subject assessment policy.
- 3.1.4 We always put emphasis on non-Chinese speaking student education and we are one of the designated schools for Non-Chinese students. We have shared our teaching experiences with colleagues in public. In particular of taking care to non-Chinese speaking students, the school sought to lay a solid foundation for their Chinese learning such as the school made good use of the “EDB After-school Chinese Learning Activities fund”. It aims to reconstruct the Basic Chinese curriculum for improving the Chinese level of Non-Chinese students. We mainly focus on P.3 Chinese for non-Chinese Speaking Students this year.
- 3.1.5 To cater for students' individual differences, we have organized enhancement and remedial classes for Chinese, English and Maths in all levels. In supporting students' learning needs

and catering for individual differences, our school organized different tutorial classes for students. We have 13 remedial and tutorial classes for Chinese, English and Maths this year. Class teachers also provide an active learning experience for their students by explaining difficult concepts and providing examples for exploration in self-study period. Tutors encourage students to develop confidences in their academic abilities. They assist students in tailor-made supporting materials to enhance their study techniques.

- 3.1.6 This is our second year to join the School-based Curriculum Development Support Programme which is held by the EDB. Maths teachers have frequently arranged co-planning meetings with the EDB office in order to enhance students' competency in Maths. They compromise the Maths learning difficulties. We are an "international-mix" school implementing Local (Math) Curriculum. Our students come from 23 nations. Together with our local students' fluency in English language, our Math Classrooms are more alike liberal western or international ones. Moreover, unlike the 'Asian or local families', the non-local families have a different perspective and attitude towards their children's Math learning. Therefore, teachers design school-based materials by using the concept of visualization of the thinking process such as Box diagram, House diagram and Bar diagram and shared their project outcome to other teachers in the "Learning in Action: From understanding learning to deepening learning" Seminar 2015.
- 3.1.7 In this year, 'Working Buddy Scheme' concerning knowledge transformation among experienced and new teachers is launched. This scheme provides a framework for peer supervision, teaching and support to the new teachers from experienced ones. It aims to promote support on familiarization and teaching pedagogies through mentors. Throughout the year, mentees have to write journals for records their experiences as a record or reference.
- 3.1.8 Our school has always been putting strong emphasis on teachers' professional development in multi-cultural education by organizing various study tours. This Lunar New Year, our teaching staff joined Xi'an Cultural Tour, which let them learn about the historical & cultural heritage of the China as Xi'an is the oldest Four Great Ancient Capitals of China.

Reflection

- 3.1.9 The school will focus more on questioning and self-regulated learning to enhance students' thinking skills next year. For boardening students' horizons, the school will continue to organize different learning excursion for students, such as Visual Arts Study Tour in coming September and teachers' professional development excursion in Narsha.

3.1.10 For the further development of our schools' Basic Chinese curriculum for Non-Chinese speaking students, we will work in collaboration with EDB to enhance the building of the curriculum and syllabus with reference to the "Chinese Language Assessment Tools for Non-Chinese Speaking Students". For Maths, we will continue to join the EDB School-based Curriculum Development Support Programme next year. Our target is to enhance students' competency in Maths of P.4. It is highly suggested to receive professional support to other subjects if necessary and let teachers to apply their knowledge and undergo continuous professional development.

3.1.11 For teacher s' professional development, Collabrative Lesson Planning (CLP) meetings will be promoted in different subjects and levels. It helps teachers form regular meeting to share the teaching strategies for improving teaching pedagogies and promote the academic performance of students. Teachers' valuable experiences and effective classroom practices are disseminated in the CLP meetings. The content of the meetings will focus more on questioning and self-regulated learning through IT.

3.2 Priority Task 2: Build a healthy, caring and loving culture in the campus

Achievements

3.2.1 This is our sixth consecutive year to be awarded "Caring School Award" and this year we have been nominated to get "The Best Caring Home School Cooperation Award." It is a tribute to the school's effort in establishing a loving and caring culture at school. Through various school activities across all subjects, students, parents and teachers have built a strong sense of belonging towards the school. Our school has good reputation because there are over 3000 applicants in Primary One Admission (POA) this year.

3.2.2 For strengthening home-school cooperation, more than 300 LMCites joined the PTA Picnic. We also organized parents' workshops about 'How to prevent children from getting improper information from Internet', 'Emotional control', and 'Mind map'. Also, we encourage the donation of old storybooks and uniforms. This year, we had a strong team of parent volunteers participating in Joint-school Sports Day and Lunar New Year Celebration. 25 parents have been awarded the Kowloon City and Yau Tsim Mong Volunteers Commendation Ceremony and the Kowloon City Schools Outstanding parents Commendation Ceremony. Moreover, there are 181 parent volunteers and the total number of hours of volunteering services was more than 4,535 hours in this year.

3.2.3 To build up a caring and loving school culture, P.6 Abseiling Day Camp, Fruit Day, Wellness March, Lovely Card, Salute to Teacher Campaign, Physical Fitness Test Day, PLK Special

Dressing Day, PLK Charity Walk cum Carnival, PLK Flag-selling Day are integrated into our school lives. Our school has also applied for the Community Care Fund: Lunch subsidy and learning activities outside Hong Kong, to subsidized students in need. In the aspect of moral education, the school put major concerns in organizing extensive caring learning opportunities for students, such as joining the production of film “Missed out”, LMC Spirit Building Day in Ocean Park, watched an educational touching film “Little Big Master” and Music Performance for Million Concert. There are also four fruitful educational excursions of USA Basketball Training Tour, Foshan Pottery, Taiwan Yilan Serving Trip and Teacher Staff Development trip at Xi’an. Undoubtedly, these learning opportunities and experiences can broaden the horizon of both students and teachers and give a chance to learn from different schools’ classrooms and cultures around the world.

- 3.2.4 Our school is whole-heartedly devoted in enhancing the effectiveness of students’ learning through a wide range of daily school activities, and students treat each other in a friendly, affectionate and brotherly manner at anytime. In order to make our LMCites all rounded, the school has offered other learning activities, such as English Week, Putonghua Week, Maths Fiesta, GS Practical Assessment Weeks, English Drama and musical “Peter and the Wolf” and School Choir Performance, Putonghua drama, and doing volunteering services for kindergartens and lower primary students. There are also some huge school functions like Sports Day, P.5 Training 3-day-2-night Camp and P.6 Parental Graduation Training Day, LMCites got Talent Contest, Performance for HK Community Network, PTA BBQ Picnic, TSA Parent Oral Assessors and Graduation Ceremony and Speech Day.

Reflection

- 3.2.5 In the coming year, our school will organize more activities for parents, such as organizing workshops that are more practical. More parent-child activities can be organized by the Parent-Teacher Association and more teacher manpower should be recruited and engaged for the development of home-school cooperation. We also organize more financial talks for both parents and students for money management.
- 3.2.6 Our school will continue to provide wide-ranging activities to students to fit for their needs and give chances for them to explore their potentials. In addition, our school lets students enjoy doing physical exercises by introducing different healthy programmes. We can also gain supports from the subject of General Studies and Whole-Person Development for nurturing a healthy lifestyle in students’ daily lives.

3.2.7 More promotion of school and educational excursion for both students and teachers will be held. The main focus of the teacher development is their professional growth and psychological supports through team building activities and the buddy mentor-mentee Scheme. Furthermore, as the number of classes will increase in 24 classes next academic year, the school will put more effort on restructuring the school organization, improving Mentorship Scheme, strengthening team spirit and providing more support to teachers to improve the working atmosphere. Several maintenance works will be carried out during the summer holiday to provide a better learning and working environment for students and teachers respectively.

3.3 Priority Task 3: Utilize Information Technology in Learning and Teaching

Achievements

- 3.3.1 Our school WebSAMS has been upgraded from version 2.0 to 3.0 and we have installed an extra new server for supporting WebSAMS Central Documentary Repository since August 2014. A more reliable system has been used for report cards making and data management such as students' personal information, ECA records, school duties, academics records and SSPA records as well as E-Services and TPDC records for teachers.
- 3.3.2 Various E-learning platforms for different subjects have been used for facilitating students' self-regulated learning and serving as supplementary practices for students. They are highly dependent on the motivation students' learning and it is a useful learning tools to help students carry out their own self-regulated learning.
- 3.3.3 A user-friendly LMC Apps particularly designed for the parents to access the school current news and school information easily.
- 3.3.4 Our school is substantial on the innovation of education. Some IT Professional development workshops were organized like E-boards interactive whiteboards and E-class platforms. It aims on creating an interactive environment in classrooms.

Reflection

- 3.3.5 After upgrading the WebSAMS, in-depth training workshops with hand-on practices, security issues, user guidelines, data management and allocation of human resources are on schedule to plan in the coming future. It aims to apply this system for providing rooms to teachers on their teaching.
- 3.3.6 There are rooms for improvement in working schedules, duties allocation, server taxonomy, database management, data security of students' award records and administrative materials and

all departments concerned can support and cooperate closely with one another to ensure smooth implementation of information technology.

4. Our Learning and Teaching

4.1 Percentage of lesson time for the Eight Key Learning Areas

Apart from regular lessons, we arrange different learning activities in lessons, at recesses, lunchtime and after-school. We have after-school tutorial classes, class teacher lessons, morning assemblies, Reading lessons, library lessons and sports, art and music training courses.

This year, we have a total number of 66 classes of Extra-curricular activities and 25 different kinds of school teams. Our school has received over 1000 awards in total.

5. Student Support

5.1 Student Moral Development

Our school puts emphasis on the moral development of students. Apart from the moral assemblies, leadership training camps, patrol teams and caring angels, lessons toward whole person development have organized to cultivate students' social and emotional development. Our school also has a reward system and discipline regulations to foster the morality of students. Furthermore, we also held the Parent Talks to help the kindergarten students' parents to have a full picture of a primary school.

5.2 Student Counseling Services

Our professional school social workers provide support to individual students together with educational psychologists and class teachers. Meanwhile, support will be provided to students especially with Special Educational Needs (SEN) after identification from educational psychologists such as "The Early Identification and Intervention of Learning Difficulties Programme for Primary One Pupils" (EII). Moreover, school social workers provide lessons in the Whole Person Development (WPD). Hence, small groups, activities and talks for students are held to facilitate their personal growth.
