Po Leung Kuk Lam Man Chan English Primary School

A School That Cares

Our School's Commitment

Po Leung Kuk Lam Man Chan English Primary School has the role and purpose of establishing a caring environment for our students and we are greatly honoured to receive our 5th year Caring School Award. We believe that parents who care and nurture their child is the same as having a teacher who guides a student to their success and future. An education is the best gift that can be given to a child. In our philosophy, this bond gives a sense of love, education needs, assistance and supportive guidance in their lives. The teachers and social workers in our school are influential and special as they place their hearts into the students and support their six years of primary schooling education, consequently influencing their motivation, self-perception and academic performances.

Teacher Development Trips

Each year, we strongly emphasize the need in organising international development trips for our teachers as this promotes an awareness of teaching and learning to a continuous and higher educational level and value. Such a privileged exposure and unique experience raises their

cultural knowledge in a country's traditional heritage, culture and society. Our journeys have brought us to far distant countries such as Singapore, mainland China, South Korea and Taiwan. There are many unexplored territories yet to be learnt and discovered.

Caring Angels serving at Elderly Centre

Caring for our students

Nonetheless, our school's caring angels are students who are given the opportunity to build a positive relationship with their classmates and encourage them to spread the love and acceptance with one another. We believe that their flow of care and appreciation would influence the school to provide a cheerful atmosphere of warmth and care. Additionally, our teachers devote their time to provide professional

academic support and a caring environment for students to build up their confidence and enhance their learning abilities. Remedial and enhancement classes are set up to improve and enhance students' subject skills as well as broaden their knowledge capacity.

Our Supportive Teams

In our yearly Joint-schools Sports Day event with Po Leung Kuk Lam Madam Chan Wai Chow Memorial School, the teachers, students and parents would do a thrilling and breathtaking dance performance. This enthralling dance represents our lasting team spirit, achievement, respect and love for each other. Additionally, the school's VA shows have displayed a number of creative and inspiring art works from our young and talented students. Our recent 'Joia' show captivated the interests of many visitors and

displayed a variety of artistic themes. Finally, the support from our students' parents have played a significant part in our school's life as they have voluntarily given their time to help us in many groundbreaking events. Such events to date are Flag Selling Day, English Booth Games, Fruit Day, PTA tours in China and Camps, Art Exhibitions and many more that are related to our every day LMC lives. We value and appreciate everyone's support and care for the school and we would continue to stand together as ONE!
