## 2. Our School

### 2.1 School Vision

- 2.1.1** Po Leung Kuk is a charitable organization serving the public with the objective of “protecting the young and the innocent” over a centenary. The Kuk’s education services follow the same objective in providing quality services to students.
- 2.1.2** All Po Leung Kuk affiliated schools of different levels operate on a non-profit making basis. The mission and policy of affiliated schools put the emphasis on social benefit and keep pace with the current needs of the society. “Love, Respect, Diligence and Integrity” is the motto of Po Leung Kuk affiliated schools. “Morals, Cognition, Physical, Social, Aesthetic Development” emphasize on the cultivation of students, and they are expected to contribute to the society with what they have learnt.
- 2.1.3** The School Management Committee of Po Leung Kuk affiliated schools is a committee with no political or religious background. People can express themselves freely of their own feeling and belief, provided that the law has been complied, and the school order is not threatened. All thoughts of schools and all religions can coexist at schools.
- 2.1.4** Po Leung Kuk is a non-government organization that was established by the Chinese. The Kuk concerns about the community and the Mainland and dedicates to the development of the Chinese Culture. The affiliated schools encourage students to participate in social services to develop their sense of responsibility towards different nationalities, which nurtures them with an open and optimistic attitude as well as global perspective.

### 2.2 School Mission

Our school is a whole day Direct Subsidy Scheme (DSS) co-educational English primary school which was established in 2007 with “Love, Respect, Diligence and Integrity” as the motto and “L.M.C.” as the mission.

#### **L-Language**

(Education towards bi-literacy and bilingualism)

#### **M-Morals**

(Morals Education and Respect for all nationalities and cultures)

#### **C-Control**

(Learn to control our body, our sense and our mind)

### 2.4.3 Teachers' Professional development

In this year, all teachers attended monthly general meetings, seminars, courses and educational exchanges as Teachers' Professional Development. A Teacher-LMCites professional development trip was held in Tokyo, Japan (a 5-Day, 4-Night Excursion). Teachers also joined Teacher Development Day, Po Leung Kuk Teacher Development Day, some workshops in EDB and some seminars organized by tertiary institutions.

## 2.5 Our Students

We provide many chances for students to learn outside the classrooms, including different learning experiences and activities. In addition, varieties of extra-curricular activities are provided for students in order to promote a holistic development. Therefore, our students are active, cheerful, passionate, expressive and willing to share with others. They respect one another and maintain a harmonious relationship amongst themselves. They have strong motivation to learn, and they participate actively in both lessons and school activities. Furthermore, they participate actively in various inter-school activities and competitions, including sports, music and arts, and have attained numerous individual and group awards in district, Hong Kong and overseas levels. Students' achievements are remarkable.

### 2.5.1 Nationality

With students' population comprised of 29 nationalities from five continents, the school has made good endeavors to create a harmonious and inclusive learning environment. 77% (595) of our students are Chinese, 23% (178) are non-Chinese.

### 2.5.2 Class structure

	P1	P2	P3	P4	P5	P6	Total
No. of classes	4	4	4	4	4	4	24
No. of students	132	132	132	132	132	132	792

### 3. Achievements and Reflection of Major Concerns

At the end of the school year of 2019-2020, there were 160 students (21%) selected to fill in the questionnaire of Key Performance Measures (KPM). The school selected 261 parents (33%) to fill in the questionnaire and 227 questionnaires (87%) were returned. Questionnaires were given to 52 teachers (100%) and 49 questionnaires (94.2%) were returned. There were 470 questionnaires in total and a clear and constructive result was drawn for the evaluation of our school plan.

#### 3.1 Priority Task 1: Strengthen teachers' teaching professionalism

3.1.1 The School structured some lessons of the teachers' timetables into "blocked lesson" for teachers to facilitate collaborative meetings for different subjects. All subjects arranged collaborative meetings regularly with the subject teachers of each level. Subject teachers of same level had regular collaborative meetings to discuss and evaluate the lessons in order to improve the effectiveness of learning and teaching. During the period of school suspension from February to May, all subjects continuously conducted collaboration meetings every week in order to prepare for the online live teaching and teaching videos making. All documents of collaborative meetings, module plans and learning materials were recorded as a teaching reference for the next school year. In addition, the School arranged peer-lesson observations in the 2<sup>nd</sup> and 3<sup>rd</sup> term. Some of the lesson observations had been successfully completed before the suspension of schools. Both the observers and the teachers being observed had a post-evaluation meeting after the lesson to enhance the teaching effectiveness of the lessons. Although some planned lesson observations have not been completed, the department heads of curriculum and the subject panels watched all the teaching videos produced by the subject teachers. Apart from the regular lesson observation, the School arranged a lesson study for each main subject. Mathematics, Chinese Language (for non-Chinese speaking students) and General Studies have carried out their lesson study programmes before the suspension of schools. Through collaboration in designing the lesson plan, implementation, evaluation, modification and reimplementation, teachers could learn how to construct a productive collaboration meeting and organize an effective teaching flow under the leadership of the curriculum leaders and subject panels. According to the Stakeholder Survey Report, 100% of the teachers strongly agreed or agreed that *the subject panels/committee heads effectively promote teachers' professional interflow and collaboration*. 98% of the teacher respondents strongly agreed or agreed *the school has developed an ambience of professional interflow*. 100% of the student respondents strongly agreed or agreed that *the teachers often ask them thought-provoking questions in lessons, often make them inquire into different issues in lessons and often arrange learning activities such as group discussion and oral presentation in lessons*.

- 3.1.2 To strengthen the ability of subject panels in developing and modifying subject curriculum, the Chinese language subject team and General Studies team joined the school-based support scheme organized by the Education Bureau. The educational experts from EDB shared some teaching pedagogies and arranged different learning activities with our subject panels and teachers in order to enhance the learning effectiveness. One of the tasks in Primary 3 General Studies was the STEM project learning. The panel of General Studies and P.3 subject teachers had co-planning with the EBD expert. In the project, the students learnt different types of housing in Hong Kong, travelled around our school neighbourhood, visited the elderly center and finally made the thermal bags. The implementation of this STEM project learning was being selected as a good example of school-based STEM project design and was being shared in the evaluation meeting of EDB. Through this school-based support scheme, our subject panels can further develop the school-based learning materials and teaching strategies with their subject committees. According to the Stakeholder Survey Report, 100% of the teacher respondents strongly agreed or agreed *the subject panel/committee heads provide effective guidance to the development of their committees and the school-based curriculum has clearly defined objectives and policies*. 100% of the student respondents strongly agreed or agreed that *the teachers often arrange learning activities outside class for them such as project learning week, visits, field trips, etc.*
- 3.1.3 The School developed different platforms for professional sharing. There was a mentor-mentee scheme for all the teachers. A senior teacher was responsible for leading 4-5 teachers to form a teacher cell group. Teachers shared their teaching experiences, the new teaching methods and even their personal interests in the cell group regularly. Also, subject panels had lesson demonstrations for their subject teachers at the beginning of the school year. They shared their ideas about the lesson planning, lesson objectives and the teaching methodologies applied with the subject teachers after the lesson demonstration. Subject teachers were welcome to give their suggestions on the lesson arrangement. Moreover, the subject manual is regularly prepared and amended every year. 100% of the teachers strongly agreed or agreed that *the subject panels provided effective guidance to the development of the subject and effectively evaluate the effectiveness of the work of the subject*. All the teachers are encouraged to share their teaching ideas in the subject meetings, curriculum meetings and staff meetings. For examples, every subject panel shared their subject works and activities with the other subject panels in the panels' meeting. Chinese language subject teachers shared how they used different softwares (e.g. **Rainbow One, Kahoot, Seesaw** app) to improve students' reading skills in the curriculum meetings. Besides sharing within the school, teachers are encouraged to have a professional sharing to other educators outside the school. For example, our General Studies subject panels

and Physical Education panels had professional sharings in the talks and workshops arranged by the Education Bureau or some universities. According to the Stakeholder Survey Report in the KPM, 98% of the teachers strongly agreed or agreed that *the school has developed an ambience of professional interflow*.

- 3.1.4 We encouraged our teachers to attend different subject related talks, workshops and seminars. Teachers had different chances to share the teaching methodologies and the content of the workshops in subject evaluation meetings and staff meetings. The School also arranged all teachers to attend the educational seminar organized by Po Leung Kuk. Our P.2 Chinese language subject teachers and P.3 General Studies subject teachers shared their teaching and learning achievements in their subject meetings after they had received the school-based curriculum development support from EDB. Besides workshops and seminars, our school arranges some educational trips for all the teachers every year so that the teachers could learn and understand different teaching strategies and learning cultures in other places. This year, we arranged all the teachers to Tokyo, Japan. According to the Stakeholder Survey Report in the KPM, more than 95% of the teachers strongly agreed or agreed that *the teacher professional development activities organized by the school are of great help to them in performing their duties*.

### **Reflections**

- ✧ The School arranges lesson observation for all the teachers twice a year and a lesson study for each major subject every year. However, due to pandemic of coronavirus, the face-to-face lessons were suspended from February to May. Only some lesson observations and lesson studies were completed in the school. The Covid-19 pandemic may continue in the next school year. Online lesson observation and online lesson study will be arranged as an alternative if face-to-face lessons suspension takes place in order to keep strengthening our teachers' teaching professionalism.
- ✧ The School joined the school-based curriculum support programme (Chinese language Subject and General Studies) organized by School-based Curriculum Development (Primary) Section of Education Bureau. Under the leadership and guidance of the education experts from EDB, our Chinese language subject team has modified P.2 Chinese curriculum and the Chinese writing skills of P.2 Chinese students have been improved. The General Studies subject team has modified our P.3 General Studies curriculum, especially for the STEM project learning design. As such, the School should provide more opportunities for the other subjects to join this support programme in the future.

### 3.2 Priority Task 2: Facilitate students' learning through IT teaching

- 3.2.1 Our teachers incorporated learning apps and educational e-learning platforms into learning and teaching. They discussed the teaching strategies of using IT tools in the collaborative meetings. For examples, in Mathematics, teachers used *Nearpod*, *Socrative*, *Geogebra* and *Kahoot* teaching softwares to design different kinds of Mathematics interactive games and activities in the lessons. In Chinese Subject (for non-Chinese students), the School bought the license of *Rainbow One* software. The subject teachers used *Rainbow One* to design different kinds of Chinese questions and games so as to facilitate learning and teaching of the school-based curriculum, arouse students' interest in learning Chinese and improve their Chinese reading skill. Students used *Seesaw* app to record and share what they had learnt in the Chinese lessons in order to practice their Chinese speaking skill. During the suspension of face-to-face lessons, an audio and web conferencing platform "*Zoom*" was used for online learning and teaching. *Google Classroom* and school *eClass* platform were fully utilized for the submission of homework and sharing of school-based learning videos. Over 450 "*Zoom*" online lessons were conducted and 273 school-based learning videos were produced during the suspension of school. According to the Stakeholder Survey Report in the KPM, 100% of the teacher respondents strongly agreed or agreed that *they often teach the students learning strategies such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.* Meanwhile, 100% of the student respondents strongly agreed or agreed that *the teachers often provide them guidance in learning strategies such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.* and they also agreed that *they were able to apply learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*
- 3.2.2 Teachers joined school-based workshops for the use of different IT tools, softwares and apps. IT subject department arranged different IT workshops for teachers regularly. The Chinese language subject teachers shared their experience of using *Kahoot* for their reading teaching in their subject meetings. Our teachers were also encouraged to attend relevant workshops and seminars organized by EDB and other institutes. During the suspension of schools, the school IT subject department produced a number of learning videos for teaching our teachers, parents and students to use different online platforms, softwares and apps.
- 3.2.3 Apart from the lessons, teachers incorporated technology into school life and subject activities. Students played Mathematics games through different learning apps and e-whiteboards in Maths. Fiesta. A multiplication competition using tablets was held in Mathematics activities (3 different levels of questions). iPads and Tablets were used for Chinese inter-class poem competition, General Studies STEM activities, I.T. robotic competition and English reading assessment. 100%

of the teacher respondents strongly agreed or agreed that *they often teach their students learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*

- 3.2.4 Teachers designed e-worksheet, sound-recordings, pre-lesson preparation tasks through *eClass* platform and *Google Classroom* in order to enhance students' self-regulated learning. There were some extra platforms of Chinese and Mathematics subjects (「智愛中文平台」 in Chinese and '*Planetii*' in Mathematics). English language and General Studies subject departments prepared some QR codes of extended learning materials for students. These extra platforms aroused students' interest and promoted self-regulated learning. According to the Stakeholder Survey Report, more than 98% of the teachers strongly agreed or agreed that *students are often able to use a variety of resources in learning*. And 100% of student respondents *were able to apply learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*

### **Reflections**

- ✧ Due to the suspension of face-to-face lessons in the outbreak of coronavirus, some school activities with IT elements and IT workshops such as the STEM Fun Day and IT typing competition were cancelled. The School will arrange these activities in the next school year.
- ✧ During the suspension of face-to-face lessons, the teachers have made a number of learning videos. These school-based resources have been well-stored for future teaching and learning. Moreover, it was the first year for the School to launch *Google Classroom* for the submission of assignment at the period of school suspension. All teachers and students are now certainly familiar with the use of this platform. The School will continue to use this platform for homework task, pre-task or extended learning.
- ✧ A few number of students did not have appropriate mobile computer devices and sufficient network data for their online lessons at the period of school suspension. As such, the School applied for "Community Care Fund Assistance Programme - Provision of Subsidy to Needy Primary and Secondary Students for Purchasing Mobile Computer Devices to Facilitate the Practice of e-Learning" from the government. In the next school year, the School will keep on finding other resources to support all the students for having their own mobile devices for self-directed learning as well as collaborative learning with their peers. Simultaneously, our school will strive hard to enhance students' information literacy and develop their relevant knowledge, skills and attitude so that they can use IT effectively and responsibly in learning. Cyber Ethics will be a main focus in the IT curriculum.

### 3.3 Priority Task 3: Promote Moral Education across the curriculum

- 3.3.1 The School incorporated moral education into formal curriculum. Teachers discussed how to incorporate different moral values and attitudes into their teaching in subject collaboration meetings. For example, “respect each other” was taught when the students were learning the topic of “people in the School” in General Studies lessons. “Appreciation” was taught when the students were learning how to write a letter of appreciation in Chinese lesson. According to the Stakeholder Survey Report in the KPM, almost 98% of the teachers strongly agreed or agreed that *the school actively helps students develop correct value*. 100% of the student respondents strongly agreed or agreed that *the school actively fosters their virtues* and 99.1% of them agreed that *the students respect the teachers*. According to the Assessment Program for Affective and Social Outcomes, our school students’ performance in subscale of “Care for Others” is more positive compared with Hong Kong Norm. All our student respondents agreed or strongly agreed that *they are considerate towards others, like helping others, care about other people’s safety, always greet people and keep in touch with their relatives and friends*.
- 3.3.2 In our school’s Whole Person Development lessons, teachers teach different moral topics through the aspects of personal, family, community, country and the world. The teachers have prepared different kinds of activities and exercises to develop students’ positive moral values. Starting from the school year of 2018-2019, our school has enriched the curriculum of the Whole Person Development subject. The School incorporated the spirit of Po Leung Kuk and our benefactor, Dr. LAM’s working experience in our WPD curriculum in order to teach students to serve our community and show their great perseverance when facing difficulties.
- 3.3.3 Besides the formal curriculum, the School promoted moral education through other learning experiences. Our school organized different learning excursions and trips to Mainland or overseas for students to learn and respect the cultures and customs of the other places. We always provide opportunities for students to serve their schoolmates and our community. For example, each student has at least one duty at school in order to take up and perform his/her responsibility. In P.3 General Studies, students visited elderly center. They played games with the elderly, have souvenirs and performances. Some of our school teams such as Lion Dance Team and Skipping Team performed in the kindergartens and joined activities organized by some community organizations. 99.1% of the student respondents and 97.4% of parent respondents strongly agreed or agreed that *through participation in the school’s extra-curricular activities, the students’ learning opportunities in respect of extra-curricular knowledge and life skills, etc. are increased*.

3.3.4 The School actively cultivates students' positive attitudes through both formal and informal curriculums, scheme and daily training. Different moral topics (respect, perseverance, appreciation, etc.) were shared by the experienced teachers in the morning assemblies. Also, a smart kid competition was held every month. Students were encouraged to do their best in the aspects of responsibility, discipline and cleanliness. The winning class of each level had a chance to read out their class slogan in order to nurture their sense of belonging. In the school year of 2019-2020, the School promoted a new student award scheme. It aims to encourage all student LMCites to set their plans and establish whole person development through different means in their school lives. Students were encouraged to do their best to get the stamps in the areas of academic, discipline, cleanliness, extra-curricular activities, responsibilities and politeness. In the students' conduct review process, teachers reviewed the students' conduct in four aspects: responsibility, discipline, courtesy and neatness. According to the Stakeholder Survey Report in the KPM, almost 98% of the teachers strongly agreed or agreed that *the school actively helps students develop correct value*. 96% of the parent respondents strongly agreed or agreed that *the school could foster in their children good virtues*. More than 96% of the parent respondents strongly agreed or agreed that *the school is able to foster his/her child's self-discipline and make them abide by school regulations*. 100% of the student respondents strongly agreed or agreed that *the school actively fosters their virtues*. According to the Assessment Program for Affective and Social Outcomes, *our school students' performance in subscales of "respect for others" and "effort" are more positive compared with Hong Kong Norm*.

## **Reflections**

- ✧ Due to the suspension of face-to-face lessons from February to May this year, the School arranged online "Zoom" lessons for class teacher period and major subjects. Class teachers shared some information about moral values with the students in the class teacher periods. The principal of the School also shared the moral virtues related to ethical pandemic response with parents and students in our school's moral education videos. Seven pieces of moral education videos have been uploaded onto our school's YouTube channel. In the next school year, we will continue to make more videos about moral virtues for our parents and students. We will arrange online WPD lessons with the students if suspension of face-to-face lessons takes place again.
- ✧ Due to the coronavirus pandemic, only Belgium Trip and Australia Trip were successfully organized for the students in the school year of 2019-2020. The School will organize different excursions after the pandemic so that the students can learn the living culture, learning culture and traditions of the other places.

- ✧ The school carried out a new system of the student award scheme in this school year. The students took part in the scheme enthusiastically and they tried their best in different aspects like discipline, politeness, responsibility, cleanliness, academic performance and extra-curricular activities. Furthermore, participation of parents was included in this new student award scheme. Parents showed their appreciation to kids when they did well at home. We will evaluate and modify this scheme and carry forward in the next school year and onwards.

## 4. Our Learning and Teaching

### 4.1 Percentage of lesson time for the Eight Key Learning Areas

Apart from regular lessons, we arranged different learning activities in lessons, at recesses, lunchtime and after-school. We had after-school tutorial classes, class teacher lessons, morning assemblies, reading lessons, library lessons and sports, art and music training courses.

Domains	Subjects	No. of lesson	Minutes per week	Percentage
Language	Chinese/ Basic Chinese	11	330	24.4%
	English	10	300	22.2%
Mathematics	Mathematics	8	240	17.7%
Personal, Social and Technology Education	General Studies	5	150	11.2%
	Information Technology	2	60	4.4%
Physical and Arts Education	Music	2	60	4.4%
	Physical Education	2	60	4.4%
	Visual Arts	2	60	4.4%
Others	Library Lesson	1	30	2.3%
	Multi-intelligence Class	1	30	2.3%
	Whole Person Development lesson	1	30	2.3%
Total:		45	1350	100%

At the period of school suspension, the School arranged online video and live lessons for students. Students learnt knowledge of different subjects and kept positive attitude even staying at home. We also designed e-assignments to assess the learning effectiveness on *eClass* and *Google Classroom* platform. In the 1<sup>st</sup> phrase (from February 24 to March 3 and from March 16 to March 24), school produced 273 tailor-made learning videos for students over 5 major and 7 minor subjects. In the 2<sup>nd</sup> phrase (from March 4 to March 12 and from March 25 to June 12), “Zoom” online teaching and learning of major subjects were conducted in the morning session. Students had live interactions with teachers. Tailor-made learning videos of minor subjects were provided in the afternoon session. Overall more than 450 periods of online lessons were conducted in the period.

## 4.2 Practical Assessment

Practical assessment was arranged in the subject of General Studies. Students learnt the subject knowledge through observation, discussion and presentation. Parents were satisfied as their kids were learning under no pressure but learnt in a more comprehensive and practical way.

## 4.3 Theme Learning in P.E., Music and I.T. Curriculum

In the curriculum development of P.E., Music and I.T., the School designed a Theme-based learning for students. Theme-based learning was interdisciplinary, highlighting the relationship of knowledge across academic disciplines and everyday life.

	<b>P.E</b>	<b>Music</b>	<b>I.T.</b>
<b>P.1</b>	<b>Skipping</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 8 lessons	<b>4-hole Harmonica</b> (Assigned in 2 <sup>nd</sup> term) Total: 16 lessons	<b>Basic Coding</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons
<b>P.2</b>	<b>Roller Skating</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 8 lessons	<b>10-hole Harmonica and Recorder</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 16 lessons	<b>ScratchJr</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons
<b>P.3</b>	<b>Inline hockey &amp; Swimming</b> (Assigned in 1 <sup>st</sup> & 3 <sup>rd</sup> term) Total: 20 lessons	<b>Ukulele and Recorder</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 16 lessons	<b>LEGO Education: Simple &amp; Powered Machines</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons
<b>P.4</b>	<b>Martial Arts</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 8 lessons	<b>Guitar Lv. 1</b> (Assigned in 2 <sup>nd</sup> term) Total: 16 lessons	<b>Scratch</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons
<b>P.5</b>	<b>Sport Coaching and Fitness</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 8 lessons	<b>Guitar Lv. 2</b> (Assigned in 2 <sup>nd</sup> term) Total: 16 lessons	<b>Scratch</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons
<b>P.6</b>	<b>Swimming</b> (Assigned in 1 <sup>st</sup> & 3 <sup>rd</sup> term) Total: 12 lessons	<b>Creative Project: Musicals</b> (Assigned in 2 <sup>nd</sup> term) Total: 16 lessons	<b>Micro:bit</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 13 lessons

## 4.4 Assessments and Examinations

In the past few years, our school formally evaluated students' learning performance through progressive subject quizzes, internal assessments and examinations. There were three examinations for Primary 2 to Primary 6 students. Subject post-examination evaluation meetings were held for analyzing students' performance. Through the subject formative assessments and school examinations, teachers evaluated the students' performance and adjusted the strategies of learning and teaching successfully and smoothly.

### 4.4.1 The Primary One Annual Assessment Policy

In the school year of 2019-2020, the School started a new assessment policy for Primary 1 students. Formative assessments were carried out to assess the student's learning performance instead of the formal examinations. Teachers monitored the students' learning and provided ongoing feedback to the students. Students and parents were regularly informed about the student's learning process so that Primary 1 students could focus on the adaption to primary

school life in a happy learning environment more. No marks or grades would be shown on the assessment papers and learning reports.

To let parents have a comprehensive understanding of the student's learning content and performance, a progress report and a summative learning report were issued at the end of each term and at the end of the school year respectively. The learning progress report showed the learning progress and learning performances of the student in all the subjects. Major subject teachers' comments and suggestions were shown in the learning progress report. In order to assess students in a more comprehensive way, learning progress report also showed the student's conduct (focusing on four areas: responsibility, discipline, courtesy and cleanliness), homework submission record and other information.

### Other Learning Experience

School-based learning logbook for excursion was designed for all students who joined into every learning trip, which could help students engrave their learning. Unfortunately, most of the trips were cancelled because of the school suspension in this year. Only the following learning trips were successfully organized:

Domains	Name of activities
English Culture	12 Days Cairns (Australia) Study Tour 2019
Environmental Protection	Community observation of housing and service learning – Housing in Hong Kong (P.3)
Discipline and Guidance	Student Patrol Team Camp in Hong Kong
Team spirits and sportsmanship	4 <sup>th</sup> world inter-school rope skipping championship (Belgium)

### 4.5 School Teams and Extra-curricular Activities

Our school provided chances for students to show their learning outcomes in order to widen their scopes of learning. A sustainable growth of our school was shown as we excelled in academic, sports, music and visual arts competitions. This year, we had a total number of 64 classes of extra-curricular activities and different school teams from various areas. Our school received over 1400 awards in total.

## 5. Student Support

### 5.1 Student Moral Development

Our school put the emphasis on the moral development of students. It is one of our major concerns to promote moral education across the curriculum. Therefore, different subjects have incorporated moral values in their respective formal curriculum. In addition, moral assemblies, leadership training camps, patrol teams and caring angels, lessons on whole person development were organized to cultivate students' social and emotional development. The School also organized a “Zoom” talk for

parents to cater their needs amidst the pandemic period. Our principal, on the other hand, produced videos addressing moral values for parents and students. Our school also had a reward system and discipline regulations called “Students Award Scheme” to foster the morality of students.

## 5.2 Student Counseling Services

Our school formed a student support team to help with student counseling services. The team members include our school principal, one supervisor, two social workers, two discipline and guidance head teachers, two SENCOs and one supporting teacher. Our professional school social workers and SENCOs together with educational psychologists and class teachers provided support to individual students. Meanwhile, support will be provided to students especially with Special Educational Needs (SEN) after identification from educational psychologists such as “The Early Identification and Intervention of Learning Difficulties Programme for Primary One Pupils” (EII). Moreover, school social workers provide lessons in the Whole Person Development (WPD). Small groups activities and talks for students were held to facilitate their personal growth.
