3. Achievements and Reflection of Major Concerns

3.1 Priority Task 1: Strengthen learning efficiency and teaching pedagogies

3.1.1 In enhancing teachers' professionalism in questions, teachers agreed that the collaborative subject meetings were effective and it should be held regularly that it should hold before the chapter starts. Module planning which focus on questioning can help teachers improve students learning. In the Key Performance Measures (KPM), 44.7% and 48.9% of teachers strongly agreed and agreed respectively (93.6% in total) that *teachers ask students questions of different levels in lessons*. 34.8% and 43.5% of students strongly agreed and agreed respectively (78.3% in total) that *the teachers often ask us thought-provoking questions in lessons*. Variety of workshops and seminars were held for teachers which could enhance teachers' professionalism such as team building, Nansha trip, emotional workshop and SEN workshop. These workshops or seminars could help teachers to know more about catering for learners' diversity and how to use questioning skills during lessons. It is glad to see more students could achieve different levels of questioning and answering. In the Key Performance Measures (KPM), 25.5% and 68.1% of teachers strongly agreed and agreed respectively (93.6% in total) that *the teacher professional development activates organized by the school are of great help to me in performing my duties*. 50.0% and 46.1% of parents strongly agreed and agreed respectively (96.1% in total) that *the students of our school respect the teachers*.

3.1.2 Teachers wanted to keep the collaborative meetings before students' examination as it is a half-day school. It is also good to have some external support from EDB for our Basic Chinese (BC). Teachers' praised that the teachers' handbook is good for teacher to organize their schedule. Regular co-planning meetings and lesson observations were effective and adequate with useful feedback. Through the co-planning meeting, teachers agreed that structure of module plans were well developed and could make the plans complete on time. In the KPM, 40.4% and 53.2% of teachers strongly agreed and agreed respectively (93.6% in total) that *the subject panel/committee heads effectively promote teachers' professional interflow and collaboration*. The mentorship scheme called "Novice-Pro" could help new teachers learn from senior teachers which aided them in their professionalism. Mentors gave timely feedback to the mentees and the new teachers wished to keep it. In the KPM, 46.8% and 48.9% of teachers strongly agreed and agreed respectively (95.7% in total) that *the staffs cooperate with one another happily*.

3.1.3 About the assessment of students' academic performance, the school has set clear and effective guidelines for assessment or examination papers setting. All the assessments and examinations were met students' level of performance. Through the evaluations' teachers could understand the strengths and weaknesses of students' performance. In the KPM, 27.7% and 63.8% of teachers strongly agreed and agreed respectively (91.5% in total) that *the performance assessment methods adopted by subject panels effectively assess students' performance*. The school prepared functional excel forms and evaluation forms to analyze students' performance. Evaluation meetings were held regularly to evaluate students' performances on the assessments or examination. It could be minimizing the ambiguities in the papers. In the KPM, 29.8% and 66.0% of teachers strongly agreed and agreed respectively (95.8% in total) that *subject panels are able to monitor curriculum implementation of their own subjects, e.g. systematic analysis on student learning and teaching and evaluation data can improve the curriculum implementation*. 55.3% and 34.0% of students strongly agreed and agreed respectively (89.3% in total) that *the teachers often give us encouragement in lessons*. 30.5% and 53.1% of parents strongly agreed and agreed respectively (83.6% in total) that *the school is able to help my child solve the problems he/she encounters in his/her growing process, such as in their physical and mental development, making friends and academic performance*.

Reflections

- 3.1.4 Teachers would like to have more workshops specifically in questioning because teachers want to learn more how to set good questions. Some subject-based workshops should be organized. It can enhance teaching skills and knowledge. Some Graded worksheets are designed and these should be designed more for different levels.
- 3.1.5 Regular monthly collaborative meetings suggested to do in 2016 – 2017. It could build up the professional dialogues and critical thinking among teachers. About the mentorship scheme, the mentor should be properly arranged as he/she who is teaching the same to the subject(s) to the mentees.
- 3.1.6 Remedial and Enhancement scheme is proved to enhance individual students learning effectiveness and motivation.

3.2 Priority Task 2: Incorporate and utilize IT tools for self-regulated learning

- 3.2.1 There was a school-based workshop about the platform of e-class as an introduction. All the class teachers have started to use e-class for record the attendance from September, 2016. Some teachers used e-class to give out assignments and did the questionnaires. In addition, there were

some workshops about white board and tablet using. Teachers can form their own learning community to use those devices.

- 3.2.2 The school purchased 160 tablets to facilitate learning and teaching for students. Students were engaged to use for searching information and online learning which could improve the students' IT skills. Technology changes and students need to be equipped with contemporary skills in this globalized society.
- 3.2.3 The lessons could be incorporated in the multi-functional interactive whiteboard. Teachers could make their lessons more attractive by using the interactive whiteboard.
- 3.2.4 About the facilitation students' self-regulated learning by IT tools, relevant links has been put on the school website for students to use. The self-regulated learning has been incorporated in the scheme of work like the platform of "Planetii" and 「每日一篇」. Students enjoyed learning by themselves. Chinese listening for Dictation was set up in the e-class too. Some teachers provided supplementary worksheet at the end of each chapter to help students do further study. Optional e-learning tasks could be done at home. In the KPM, 27.7% and 59.6% of teachers strongly agreed and agreed respectively (87.3% in total) that *students are often able to use a variety of resources, such as the Internet and the library, in learning*. 37.9% and 40.0% of students strongly agreed and agreed respectively (77.9% in total) that *they are able to apply learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and online resources, etc.*
- 3.2.5 Both campuses have been set up Wi-Fi and it was fully covered with strong signal. Teachers are glad to use electronic devices in everywhere at school.
- 3.2.6 An app of our school has been set up. Parents, students and even public could access and get the updated information of our school quickly. Some school events had been updated on the app regularly.

Reflections

- 3.2.7 The frequency of using e-class can be increased through the incorporation to the scheme of work. If it is put in the scheme of work, teachers will assign to students regularly. Workshops about how to use the e-class and disseminate assignments can be held to motivate teachers to use it. A group of IT teachers can form a group with other subject teachers as a learning community to promote the usage of e-class.
- 3.2.8 Tablets have been bought and teachers should widely use it in different subjects. It should be incorporated into the curriculum and make it to the stage of implementation. Some

school-based workshops can be held to share the ideas how to use in the class. Teachers should increase the variety of using tablets instead of searching information only.

- 3.2.9 Some whiteboards do not function well. It makes teachers reduce the desire to use it. Encouragement is needed to give to teachers for using it. Using whiteboard should be incorporated into lesson planning and those whiteboards will be repaired soon.
- 3.2.10 Teachers should search more relevant websites for students and let them access as self-regulated learning. But relative preparation should be organized beforehand like a worksheet should be done after accessing the website. Besides, for increasing the usage of e-class, an e-worksheet should be prepared in Chinese, English, Mathematics and General Studies and let students finish it through e-class at home.
- 3.2.11 The Wi-Fi is mainly to facilitate the IT teaching with tablets instead of using their own mobiles. Teaching with tablets should be encouraged with the cover of the Wi-Fi.
- 3.2.12 The use of school app should be promoted to students and parents. It provides one more channel to the parents to know the updated information. More school news and information should be updated from time to time.

3.3 Priority Task 3: Sustain healthy, caring and eco-friendly campuses

Achievements

- 3.1.7 Nurturing students to have a healthy life style in both mentally and physically are important. The school held Smart-kid competition to arouse students' awareness of discipline, cleanliness and responsibilities. Students were enthusiastic and active to participate. The school held numbers of activities to facilities students' emotional development like project learning in P.1, Water Resources in P.4, Wellness November with Fruit Day, Physical Fitness Day and Emotion Control for the whole school. The positive message could be conveyed to students in the morning meetings. Sometimes, the morning meetings were held by students that to promote knowledge and current news to facilitate students' awareness of values. Some thematic activities were organized like「齊惜福」to encourage students to protect our world. In the KPM, 29.8% and 63.8% of teachers strongly agreed and agreed respectively (93.6% in total) that *the school's discipline and guidance work is geared to students' development needs*. 62.6% and 24.2% of students strongly agreed and agreed respectively (86.8% in total) that *the school actively fosters our virtues*. 50.8% and 43.8% of parents strongly agreed and agreed respectively (94.6% in total) that *the teachers care about my child*.

- 3.1.8 The school held different kinds of activities to strengthen caring among students and community like “flag selling day”, “charity walk”, “donation to rope jump skipping” and “care bear”, “special clothes day”, etc. “Caring Angel” is one of the meaningful activities for students to learn how to care the classmates. In addition, some students became the volunteers to help the elderly in the elderly home and cleaned up the benches in the eco-park as they are the green ambassadors. In the KPM, 44.7% and 51.1% of teachers strongly agreed and agreed respectively (95.8% in total) that *the school actively helps students’ development correct values*. 68.4% and 21.1% of students strongly agreed and agreed respectively (89.5% in total) that *the teachers care about me*. 50.8% and 41.4% of parents strongly agreed and agreed respectively (92.2% in total) that *my child likes to participate in the school’s activities and affairs*.
- 3.3.1 The school held different kinds of activities to arouse students’ awareness of protecting the environment like “Christmas tree making by using reduced materials”, bins were used to promote a clean and green environment. Some rules are set like banning to use mini-fan, and recycling. In the KPM, 61.7% and 36.2% of teachers strongly agreed and agreed respectively (97.9% in total) that *the school’s extra-curricular activities can help extend students’ learning experiences*. 52.7% and 33.3% of students strongly agreed and agreed respectively (86.0% in total) that *through participation in the schools’ extra-curricular activities, my learning opportunities in respect of extra-curricular knowledge and life skills, etc are increased*. 63.3% and 34.4% of parents strongly agreed and agreed respectively (97.7% in total) that *the parents are pleased to let their child study in our school*.

Reflections

- 3.3.2 Wide ranges of healthy activities have been arranged to students. All the activities should be sustained and letting them to advance to higher level. Students are encouraged to bring healthy snacks during wellness months.
- 3.3.3 Parents are encouraged to join the voluntary activities with their students. Various topic of caring among students and community should be held like love our school and community.
- 3.3.4 Promoting the recycling habit and the proper methods are important. Labels on the recycle items should be introduced. Students should be reminded the importance of caring their environment.

4. Our Learning and Teaching

This year, we had a total number of 36 classes of Extra-curricular activities and 40 different kinds of school teams. Our school has received 2620 awards in total.

5. Student Support

5.1 Student Moral Development

Our school puts emphasis on the moral development of students. Apart from the moral assemblies, leadership training camps, patrol teams and caring angels, lessons toward whole person development have organized to cultivate students' social and emotional development. Our school also has a reward system and discipline regulations to foster the morality of students called "Students Award Scheme". Furthermore, we also held the Parent Talks to help the kindergarten students' parents to have a full picture of a primary school.

5.2 Student Counseling Services

Our professional school social workers provide support to individual students together with educational psychologists and class teachers. Meanwhile, support will be provided to students especially with Special Educational Needs (SEN) after identification from educational psychologists such as "The Early Identification and Intervention of Learning Difficulties Programme for Primary One Pupils" (EII). Moreover, school social workers provide lessons in the Whole Person Development (WPD). Hence, small groups, activities and talks for students are held to facilitate their personal growth.
