## **2. Our School**

### **2.1 School Vision**

- 2.1.1** Po Leung Kuk is a charitable organization serving the public with the objective of “protecting the young and the innocent” over a centenary. The Kuk’s education services follow the same objective in providing quality services to students.
- 2.1.2** All Po Leung Kuk affiliated schools of different levels operate on a non-profit making basis. The mission and policy of affiliated schools put the emphasis on social benefit and keep pace with the current needs of the society. “Love, Respect, Diligence and Integrity” is the motto of Po Leung Kuk affiliated schools. “Morals, Cognition, Physical, Social, Aesthetic Development” emphasize on the cultivation of students, and they are expected to contribute to the society with what they have learnt.
- 2.1.3** The School Management Committee of Po Leung Kuk affiliated schools is a committee with no political or religious background. People can express themselves freely of their own feeling and belief, provided that the law has been complied, and the school order is not threatened. All thoughts of schools and all religions can coexist at schools.
- 2.1.4** Po Leung Kuk is a non-government organization that was established by the Chinese. The Kuk concerns about the community and the Mainland and dedicates to the development of the Chinese Culture. The affiliated schools encourage students to participate in social services to develop their sense of responsibility towards different nationalities, which nurtures them with an open and optimistic attitude as well as global perspective.

### **2.2 School Mission**

## 2.4.3 Teachers' Professional development

In this year, all teachers attended monthly general meetings, seminars, courses and educational exchanges as Teachers' Professional Development. A Teacher-LMCites professional development trip was held in Shanghai, China. Teachers also joined Teacher Development Day, Po Leung Kuk Teacher Development Day, Kowloon City District Primary Schools Teacher Development Day, some workshops in EDB and some seminars organized by tertiary institutions.

## 2.5 Our Students

We provide many chances for students to learn outside the classrooms, including different learning experiences and activities. In addition, a variety of extra-curricular activities are provided for students in order to promote a holistic development. Therefore, our students are active, cheerful, passionate, expressive and willing to share with others. They respect one another and maintain a harmonious relationship amongst themselves. They have strong motivation to learn, and they participate actively in both lessons and school activities. Furthermore, they participate actively in various inter-school activities and competitions, including sports, music and arts, and have attained numerous individual and group awards in district, Hong Kong and overseas levels. Students' achievements are remarkable.

### 2.5.1 Nationality

With students' population comprised of 27 nationalities from five continents, the school has made good endeavours to create a harmonious and inclusive learning environment. 76% (594) of our students are Chinese, 24% (194) are non-Chinese.

### 2.5.2 Class structure

	P1	P2	P3	P4	P5	P6	Total
No. of classes	4	4	4	4	4	4	24
No. of students	132	132	132	132	132	128	788

### 3. Achievements and Reflection of Major Concerns

At the end of the school year of 2018-2019, there were 110 students (14%) selected to fill in the questionnaire of Key Performance Measures (KPM). The school selected 166 parents (21%) to fill in the questionnaire and 166 questionnaires (100%) were returned. Questionnaires were given to 58 teachers (100%) and 53 questionnaires (91.4%) were returned. There were 329 questionnaires in total and then we obtained a clear and constructive result for the evaluation of our school plan.

#### 3.1 Priority Task 1: Strengthen teachers' teaching professionalism

3.1.1 Since our students come from 27 different countries around the world, we speak different languages and have different cultural backgrounds. Therefore, teachers may have difficulties in teaching students with different learning cultures. This year, we encouraged our teachers to attend different subject related workshops and seminars. Teachers had different chances to share the teaching methodologies and the content of the workshops in subject evaluation meetings and staff meetings. Our school also arranged all the teachers to attend the educational seminars which were organized by Po Leung Kuk and Kowloon City District Primary Schools. One of our school major subjects, Chinese for non-Chinese Speaking students, received the School-based Curriculum Development support from EDB. An educational expert shared some teaching pedagogies with us in order to enhance the learning efficiency. Besides workshops and seminars, our school arranges some educational trips for all the teachers every year so that the teachers can learn and understand different teaching strategies and learning cultures in other places. This year, we arranged all the teachers to Shanghai, China. According to the Stakeholder Survey Report in the KPM, more than 90% of the teachers agreed that *the teacher professional development activities organized by the school are of great help to them in performing their duties*.

3.1.2 The school structured some lessons of the teachers' timetables into "blocked lesson" for different subject teachers to facilitate collaborative meetings. All subjects arranged collaborative meetings regularly with each level's subject teachers. Therefore, subject teachers of same level had regular collaborative meetings to discuss and evaluate the lessons in order to improve the effectiveness of learning and teaching. All the documents of collaborative meetings and the module plans have been recorded as a teaching reference for the next school year. Apart from the regular lesson observation, the school arranged a lesson study for each main subject. Through designing the lesson plan, implementation, evaluation, modification and reimplementation, teachers can learn how to have a productive collaboration meeting and an effective teaching organization under the leadership of the curriculum leaders and subject panels. According to the Stakeholder Survey Report, 98.1% of the teachers agreed that *the subject panels/committee heads effectively promote*

*teachers' professional interflow and collaboration. More than 90% of the student respondents agreed that the teachers often ask them thought-provoking questions in lessons, often make them inquire into different issues in lessons and often arrange learning activities, such as group discussion and oral presentation in lessons.*

- 3.1.3 The school developed different platforms for professional sharing. Subject panels had lesson demonstration for their subject teachers at the beginning of the school year. They would share their ideas about the lesson planning, lesson objectives and the teaching methodologies applied with the subject teachers after the lesson demonstration. Subject teachers were welcome to give their suggestions on the lesson arrangement. Moreover, the subject manual is regularly prepared and amended every year. Over 95% of the teachers agreed that *the subject panels provided effective guidance to the development of the subject and effectively evaluate the effectiveness of the work of the subject*. All the teachers are encouraged to share their teaching ideas in the subject meetings, curriculum meetings and staff meetings. For example, Chinese (for non-Chinese speaking students) subject teachers shared how they used the different softwares (e.g.: Rainbow One, Seesaw app) to improve the students' reading skills in the curriculum meetings. Besides sharing within the school, teachers are encouraged to have a professional sharing to other educators outside the school. For example, our General Studies subject panels and Physical Education panels had professional sharings in the talks and workshops arranged by the Education Bureau. According to the Stakeholder Survey Report in the KPM, 98.1% of the teachers agreed that *the school has developed an ambience of professional interflow*.

### **Reflections**

- ✧ Teachers have more chances to attend different workshops and seminars outside the school. The school encourages the teachers to try to implement what they have learnt into their teaching and share their reflection on the implementation with the other subject teachers in the subject meetings and collaborative meetings. A central collection of the related materials and documents can be arranged for future use. In addition, teachers have learnt different teaching methodologies and known more about different learning cultures from the workshops, local school visits and our teacher educational trip. The school will continue to arrange professional development trips and joint-school seminars for our teachers.
- ✧ The school joined the school-based curriculum support programme (Chinese Subject for non-Chinese students) organized by School-based Curriculum Development (Primary) Section of Education Bureau. Under the leadership and guidance of the education expert from EDB, our Chinese subject (Chinese Subject for non-Chinese students) team has modified P.3 Chinese

curriculum for non-Chinese students and the Chinese reading skills of P.3 non-Chinese students have been improved. As such, the school should provide more opportunities for the other subjects to join this support programme next school year.

- ✧ The school arranges lesson observation for all the teachers twice every year. And in this year, the school has also tried to have a lesson study in each main subject. We should allow a longer period of buffer time between the two events so as to avoid time and work clashes and to ensure better quality of results.

### **3.2 Priority Task 2: Facilitate students' learning through IT teaching**

- 3.2.1 Teachers incorporated IT tools in learning and teaching. They discussed the teaching strategies of using IT tools in the collaborative meetings. For examples, in P.3 General Studies, students used iPads to have a VR field trip to the landfill. In P.4 General Studies, students used tablets to learn hologram. In Mathematics, teachers used Nearpod, Socrative, Geogebra and Kahoot softwares to design different kinds of Mathematics interactive games and activities. In Chinese Subject (for non-Chinese students), teachers used Rainbow One software to design different kinds of Chinese questions and games so as to facilitate learning and teaching of the school-based curriculum, arouse students' interest in learning Chinese and improve their Chinese reading skill. According to the Stakeholder Survey Report in the KPM, 100% of the student respondents agreed that *the teachers often provide them guidance in learning strategies such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.* Also, 99% of student respondents *were able to apply learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*
- 3.2.2 Teachers had the school-based workshop for the use of different IT tools, softwares and apps. They were also encouraged to attend relevant workshops and seminars organized by EDB and other institutes. The use of Kahoot software was introduced in the staff meeting. Chinese subject also arranged a school-based workshop to teach the subject teachers how to use Seesaw app and Rainbow One and how these app and software could help with teaching and learning.
- 3.2.3 Apart from the lessons, teachers incorporated technology into school life and subject activities. Students played Mathematics games through e-whiteboards in Maths. Fiesta. A multiplication competition by using tablets was held in Mathematics activities (3 different levels of questions). iPads and Tablets were used in Chinese inter-class poem competition, General Studies STEM activities and I.T. robotic competition. Almost 95% of the teachers agreed that *they often teach*

*their students learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*

- 3.2.4 Teachers designed e-worksheet, sound-recordings, pre-lesson preparation tasks through e-class platform in order to enhance students' self-regulated learning. There were some extra platforms of Chinese and Mathematics subjects (「智愛中文平台」 in Chinese and 'Planetii' in Mathematics). These extra platforms aroused students' interest and promoted self-regulated learning. According to the Stakeholder Survey Report, more than 95% of the teachers agreed that students are often able to use a variety of resources in learning. And 99% of student respondents *were able to apply learning strategies, such as doing pre-lesson preparation, using concept maps, tool books and on-line resources, etc.*

### **Reflections**

- ✧ Some of the educational softwares and apps are only trial versions. Teachers and students just shared limited accounts. The school is planning to buy the educational license of these softwares for the next academic year. More teachers and students can use these educational softwares and apps for teaching and learning.
- ✧ Different subjects used different IT tools and softwares for their teaching and learning. In fact, some IT tools and softwares can be applied in other subjects. Teachers can share their experience in using those IT tools or softwares and their functions to other subject teachers in the staff meetings or the support cell groups in order to encourage other teachers to incorporate IT tools in teaching and share their teaching resources.
- ✧ We successfully encouraged and built a learning habit for the students by using e-learning methods. Students could find more information via Internet in order to finish some researches or assignment.

### **3.3 Priority Task 3: Promote Moral Education across the curriculum**

- 3.3.1 The school incorporated moral education into different subjects. Different moral values and attitudes were discussed in the subject collaboration meetings and stated in the module plan. For examples, "respect each other" was taught when the students were learning the topic of "people in the school" in General Studies lessons. "Appreciation" was taught when the students were learning how to write letter of appreciation in Chinese lesson. According to the Stakeholder Survey Report in the KPM, almost 98% of the teachers agreed that *the school actively helps*

*students develop correct value. 100% of the student respondents agreed that the school actively fosters their virtues.*

- 3.3.2 Teachers were encouraged to attend the moral education talks and workshops. Discipline and Guidance Team teachers attended the moral education talks organised by Education Bureau. And the headteachers of our school Discipline and Guidance Team and our school social workers shared how to nurture students' positive attitudes and moral values to all the teacher in the staff meeting. Apart from the teachers, parents' participation is important to build the students' positive attitudes. Our school social workers arranged different workshops such as how to manage students' emotion and develop students' positive attitudes for the parents. They also held some parent-child visit to elderly home and kindergartens. According to the Stakeholder Survey Report, 95% of the parent respondents agreed that *the school can foster in their children good virtues* and 95.7% of them agreed *the school helped their children to acquire the skills to get along with other well*. More 90% of the teachers agreed *the school's discipline and guidance work is geared to students' development needs*.
- 3.3.3 The school actively cultivated students' positive attitudes through both formal and informal curriculums, scheme and daily training. In our school's Whole Person Development lessons, teachers prepared different kinds of activities and exercises to develop students' positive moral values. Different moral topics (respect, perseverance, appreciation, etc.) were taught by the experienced teachers in the morning assemblies. Also, a smart kid competition was held in every month. Students were encouraged to do their best in the aspects of responsibility, discipline and cleanliness. The winning class of each level had a chance to read out their class slogan in order to nurture their sense of belonging. In the school year of 2018-2019, the school had a new school policy of student conduct review process. Teachers reviewed the students' conduct in four aspects: responsibility, discipline, courtesy and neatness. According to the Stakeholder Survey Report in the KPM, almost 98% of the teachers agreed that *the school actively helps students develop correct value*. 95% of the parent respondents agreed that *the school can foster in their children good virtues*. 100% of the student respondents agreed that *the school actively fosters their virtues*. According to the Assessment Program for Affective and Social Outcomes, our school students' performance in subscale of "code of conduct" and "commitment" is more positive compared with Hong Kong Norm.

## **Reflections**

- ✧ The student award scheme was suspended in the year of 2018-2019 in order to have a modification and enhance the effectiveness of the scheme. The school is going to carry out a new system of the student award scheme in the coming school year. Students can try their best in different aspects like discipline, politeness, responsibility, cleanliness, academic performance and extra-curricular activities. Students are also required to show their love and care to the other schoolmates. Participation of parents is included in the new student award scheme.
- ✧ School may provide more varieties of community services for students. Also, different kinds of duties can be created at school to provide more chances for students to take up and show their responsibilities.
- ✧ Parents did not actively participate in the parents talks on Saturdays. The school can try to arrange the talks within school hours of weekdays during the examination revision days. More parent-child community services can be arranged in order to encourage the parents to show a good example to their kids.

## **4. Our Learning and Teaching**

### **4.1 Percentage of lesson time for the Eight Key Learning Areas**

Apart from regular lessons, we arranged different learning activities in lessons, at recesses, lunchtime and after-school. We had after-school tutorial classes, class teacher lessons, morning assemblies, Reading Lessons, Library Lessons and sports, art and music training courses.

<b>Domains</b>	<b>Subjects</b>	<b>No. of lesson</b>	<b>Minutes per week</b>	<b>Percentage</b>
Language	Chinese/ Basic Chinese	11	330	24.4%
	English	10	300	22.2%

	Multi-intelligence Class	1	30	2.3%
	WPD lesson	1	30	2.3%
Total:		45	1350	100%

### **4.2 Practical Assessment**

Practical assessment was arranged in the subject of General Studies. Students can learn through observation, discussion and presentation. Parents were satisfied as less pressure was given to students and they could learn practically instead of rote learning.

### 4.3 Theme Learning in P.E., Music and I.T. Curriculum

In the curriculum development of P.E., Music and I.T., the school designed a Theme-based learning for students. Theme-based learning was interdisciplinary, highlighting the relationship of knowledge across academic disciplines and everyday life.

	<b>P.E</b>	<b>Music</b>	<b>I.T.</b>
<b>P.1</b>	<b>Skipping</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 16 hours	--	<b>Lightbot</b> (Assigned in 2 <sup>nd</sup> & 3 <sup>rd</sup> term) Total: 15 hours

### 4.4 Assessments and Examinations

In the past few years, our school formally evaluated students' learning performance through progressive subject quizzes, internal assessments and examinations. In order to balance the study and social life of students and let students learn through experiences, our school has consulted different stakeholders, including teachers and parents, that school is going to change from having two assessments and two examinations within two school terms into three examinations within three school terms, effective from academic year 2018-19. With the support of teachers and parents, our school has implemented the policy of three examinations throughout the year 2018-19. Moreover, subject post-examination evaluation meetings were held for analyzing students' performance. Through the subject formative assessments and school examinations, teachers can evaluate students' performance and adjust the strategies of learning and teaching successfully and smoothly. Since formative assessments can let teachers monitor student learning and provide ongoing feedback so as to improve students' learning, formative assessments are suggested to carry out in next academic year. Therefore, after collecting the opinions from teachers and parents, we plan that the Primary One examinations will be replaced by the Annual Assessment Policy with progressive assessments in next academic year 2019-20.

## 4.5 Other Learning Experience

School-based learning logbook for excursion was designed for all students who joined the learning trips, which could help students engrave their learning. The learning trips are as follows:

Domains	Name of activities
Environmental Protection	P.3 Singapore STEM Tour P.4 Heyuan Trip
Chinese Culture	Chinese Learning Field Trip for Non-Chinese Students
Sports Team Spirit Training	Thailand Volleyball Training Tour
	Taiwan Athletics Tour
	Basketball Tour @ 東莞宏遠俱樂部
	Basketball Team Tour
	Beijing Artistic Roller-skating Performance Exchange
	Bangkok Ice-hockey Competition Tour
	Skiping Intensive Training Camp Volleyball Intensive Training Camp
Discipline and Guidance	P.5 Teambuilding Development Camp P.6 Foshan Graduation Trip Student Patrol Team Camp

## 4.6 School Teams and Extra-curricular Activities

Our school provided chances for students to show their learning outcome in order to widen their scopes of learning. A sustainable growth of our school is shown as we excelled in academic, sports, music and visual art competitions. This year, we had a total number of 110 classes of Extra-curricular activities and different school teams. Our school received over 2000 awards in total.

# 5. Student Support

## 5.1 Student Moral Development

Our school put emphasis on the moral development of students. Apart from the moral assemblies, leadership training camps, patrol teams and caring angels, lessons toward whole person development were organized to cultivate students' social and emotional development. Our school also had a reward system and discipline regulations called "Students Award Scheme" to foster the morality of students. Furthermore, we also held the Parent Talks to help the kindergarten students' parents to have a full picture of a primary school.

## 5.2 Student Counseling Services

Our school formed a student support team to help with student counseling services. The team members included our school principal, two social workers, two discipline and guidance head teachers and two SENCos. Our professional school social workers and SENCos together with educational psychologists and class teachers provided support to individual students. Meanwhile, support will be provided to students especially with Special Educational Needs (SEN) after identification from educational psychologists such as "The Early Identification and Intervention of

Learning Difficulties Programme for Primary One Pupils” (EII). Moreover, school social workers provide lessons in the Whole Person Development (WPD). Hence, small groups, activities and talks for students were held to facilitate their personal growth.

### 5.3 Comprehensive Student Guidance Service
