4.4 Assessments and Examinations

In the past few years, our school formally evaluated students' learning performance through progressive subject quizzes, internal assessments and examinations. In order to balance the study and social life of students and let students learn through experiences, our school has consulted different stakeholders, including teachers and parents, that the School is going to change from having two assessments and two examinations within two school terms into three examinations within three school terms, effective from the academic year 2018-19. With the support of teachers and parents, our school has implemented the policy of three examinations throughout the year. Moreover, subject post-examination evaluation meetings were held for analyzing students' performance. Through the subject formative assessments and school examinations, teachers can evaluate students' performance and

adjust the strategies of learning and teaching successfully and smoothly. Since students, parents and teachers will be regularly informed about the student's learning process through the progressive assessments so that Primary one students can focus on the adaptation to primary school life in a happy learning environment. Starting from the academic year 2019-2020, the Primary One Examinations were replaced by the Annual Assessment Policy.

Arrangement of Formative Assessments - The Primary One Annual Assessment Policy with progressive assessments were used to assess the student's learning performance. Students, parents and teachers were regularly informed about the student's learning process so that Primary one students can focus on the adaptation to primary school life in a happy learning environment. There were four formative assessments of main subjects throughout the year, two in 1st term and two in 3rd term. 1st and 3rd formative assessments were conducted in the lesson time during the assessment weeks, while 2nd and 4th formative assessments were arranged in the same period of examination schedule as same as the P.2 to P.6 students. No marks or grades would be shown on the assessment papers and learning reports. However, the Project Learning, which was scheduled in term 2, was postponed to term 3 and the P.1 On-trip Project learning Day was arranged as video learning at school.

Learning Progress Report - In order to let parents have a comprehensive understanding of the student's learning content and performance, parents would receive a Learning Report at the end of each term and a Summative Learning Report at the end of the school year. Starting from the academic year 2021-22, the learning report will include learning progress, students' performance and teachers' comments of all subjects (including minor subjects). To assess students more comprehensively, the learning progress report would also show the student's conduct (focusing on four areas: responsibility, discipline, courtesy and cleanliness), homework submission record and other information. General Comment was given from class teachers on student's behavior.
